Okaukuejo is located 17 km from the southern entrance of the park.

Okaukuejo camp is the oldest tourist camp in Etosha and it currently functions as the administrative hub of the park, and the home of the Etosha Ecological Institute. It is situated at the western end of the pan. Accommodation is provided to suit every need, in premier bush chalets overlooking the waterhole; bush chalets and double rooms; or family chalets. Other facilities include a restaurant, bar, shop, swimming pool, kiosk and camping facilities. The main attraction of this camp is that it overlooks a permanent waterhole which is floodlit at night. Here a wide diversity of wildlife congregates and interacts.

Day 8

Check out of camp after breakfast and continue through Etosha to Namutoni Rest Camp (as you will game view on the drive, be sure to check with the park officials before you leave as to the movement of game in the area)

At Namutoni there is a restaurant for a buffet dinner.

Namutoni RestCamp/Bush Chalet (Bed & Breakfast)

Namutoni is situated on the eastern side of Etosha, and derives its name from the old German fort around which it is built. The presence of the fort gives Namutoni more character than the other rest camps in Etosha, and in terms of accommodation this is probably the best of the three rest camps. The Fort, which is for pedestrians only and overlooks the King Nehale waterhole, is the hub of activity with two restaurants, a relaxation lounge, a bar, crafts boutique, curio shop, jewelers and bookstore. An elevated decked walkway along the water-hole provides views of the surrounding scenery, wildlife and spectacular sunsets.

The Waterberg Camp has recently been re-developed. Accommodation is provided in comfortable premier bush chalets, two and four bed bush chalets and double rooms, all nestled along the base of the Waterberg Plateau cliffs, amongst towering trees.
